T Shape · Senior Frontend & Product Designer · Founder, Hindra Studio

PROFILE

Senior Frontend Developer and Product Designer with a T Shape skill set. Deep specialization in UI / UX design and modern frontend engineering, paired with broad working knowledge of AI tooling, motion graphics, brand work, marketing and project management. Founder of Hindra Studio, where I turn ideas into polished, shippable products from the first wireframe to a live Next.js app.

EXPERIENCE

Hindra Studio

Founder, Frontend · 2024 to present
Istanbul (self)

A studio for AI, content and growth focused products. I own everything: positioning, scoping, design system, UI, UX, frontend in Next.js, and ongoing iteration with clients. One mind, fewer translations lost in handoff.

Big Uppetite

Frontend Developer · 2024 to present
Australia (remote)

Building and maintaining the product frontend with Next.js and SSR for a remote, distributed team. Stretches into motion graphics and video editing when the brand needs it.

Rush Graphics Inc

Designer · 2024 to 2025
New Jersey (remote)

Designed user interfaces and brand assets across multiple client projects in Adobe Creative Suite. UI, visual systems and polished production graphics.

AAQ Real Estate

Project Manager · 2025 to present
Dubai (remote)

Coordinating projects across distributed teams in the UK, UAE and Türkiye. Planning, delivery and stakeholder communication for a fast scaling real estate business.

EDUCATION

■ Istanbul Kent Üniversitesi · Associate Degree, Computer Programming · 2025 to 2028

LANGUAGES

English (professional) · Persian (native) · Turkish (working)
